DUOSCAN T2000 XL

TECHNICAL SPECIFICATIONS

DUOSCAN

DUOSCAN T2000 XL

AGFASCAN T5000

AGFASCAN T8000

STUDIOCAM ACTIONCAM

Scanner type:
Desktop, flatbed

TwinPlate scanning technology:
Built in scanning bed for transparencies

CCD:
Tri-linear coated, 8000 elements

Scan mode:
One pass

Optical resolution/ scanning area
standard resolution:
-reflective:
2000 (V) x 667 (H) ppi
12" x 18" (A3 oversize) area
304.8 x 457.2 mm

-transmissive:
2000 (V) x 667 (H) ppi
9.5" x 12" area
241.3 x 304.8 mm

high resolution:
-reflective:
2000 (V) x 2000 (H) ppi
4" x 18" area
101.6 x 457.2 mm
-transmissive:
2000 (V) x 2000 (H) ppi
4" x 12" area
101.6 x 304.8 mm

Maximum resolution:
4000 ppi interpolated

Sample depth:
12 bit per color - 36 bit color

Density range:
3.0 D (maximum density: 3.2 D)

Scanning speed:
Preview speed 17 sec
(A3 area)
Scan speed (*)
13 msec/line full color
50 sec for 4" x 5" at
1000 ppi
120 sec for A4 color at
100 ppi

Originals:
Reflective and transmissive
(both positive and negative film)
(*) Scanning times may depend
on used host computer

Interface:
SCSI-2

Dimensions:
493.3 x 239.3 x 735.4 mm
(W x H x L)

Lamp:
Cold cathode lamps

Warm up time:
3 min

Power supply:
Universal 110/240 V - 50/60 Hz

Environment:
Operating temperature:
10 °C to 40 °C (50 °F to 104 °F)
Relative humidity:
10% to 85%
Storage temperature:
-25 °C to 55 °C (-13 °F to 131 °F)

Bundled software:
FotoLook 3.0x CD
(Agfa scanner driver
software)
ColorTune Full CD version
(Agfa color management
software)

Standard included:
Universal glassplate
Batch slide holders
- 35 mm framed batch
slide holder
- 35 mm strip batch
holder
- 6 x 9 cm strip batch
holder
- 4" x 5" batch slide
holder

Options:
Pin registration strip
Extra batch slide holder set

FotoLook 3.0
