

If things are getting tight ...

HEIDELBERG

A decision for quality

... the new TANGO XL has arrived!

For anyone who has to scan large reflective originals or large numbers of 35mm slides, the TANGO is now available in format XL. The TANGO XL has a scanning format of 19.6" × 25.4" and can handle even the largest scans with ease. And another new feature – the TANGO iXL version supports all CopyDot processes for screened originals. The scanning format is then 19.6" × 25". And to ensure that originals can be mounted accurately on the large drum, a mounting aid is also supplied in the form of the new TANGO Mount XL. The TANGO XL offers features galore – cutting-edge technology, minimum footprint, excellent scanning quality, reliable color manipulation through the bundled LinoColor™ software with integrated color management, and multifunctionality for a whole range of tasks in state-of-the-art prepress. The new TANGO XL was made with you in mind. Why not see for yourself?

Max.scanning format	19.6" × 25.4"
Types of original	Reflective and transparency, color and gray, contone and linework, positive and negative
Max.thickness or originals	2 mm
Scaling	20 – 3000%
Max.scanning resolution	11000 dpi, automatic on request, stepless calculation with AutoScaling hardware
Density range	3.9 D, measured on film output of gray scale
Max. resolvable density	4.2 D, measured on film output of gray scale
Signal resolution	12 bits per pixel and color (log.)
Interfaces	SCSI for interfacing a workstation
Power supply	100 – 240 V ± 10% single-phase
Power consumption	approx. 500 W
Ambient conditions	64° – 82°F 30 – 80% relative humidity
Dimensions (W × H × D)	24.4" × 59.3" × 26", height at drum change 85"
Weight	approx. 551 lbs
Approvals	cUL, GS, UL, VDE, CE
Max.drums speed	1800 rpm
Mounting aid	TANGO Mount XL
