

KODAK

ColorEase

PS Printer

Create presentations that stand out from the crowd.

The KODAK COLOREASE PS Printer is a desktop and network compatible printer designed for 35 mm slide quality, 8½ x 11" transparencies and prints.

This state-of-the-art printer gives users of presentation packages, and other color software, the ability to output stunning overhead transparencies and prints – with the color and resolution you would normally expect from a photograph – right on the desktop!

Think of the implications. Overhead presentations raised to new levels of impact and persuasiveness. Presenters can now combine text with continuous-tone graphics and images. For presentations with a competitive edge.

FEATURES

BENEFITS

- | | |
|---|---|
| • Continuous-tone (non-dithered) output, 24-bit color. | • Perfect for presentation overheads and prints with maximum attention-getting power. Print brilliant graphics and stunning images in rich, vibrant color. Access 16.7 million colors, 256 shades of gray. Works well with Photo CD images and scanner input. |
| • <i>UltraColor</i> color rendering software from Kodak. | • No need to be an expert to get great color output. Color technology from Kodak helps you create superior output the first time, and every time. |
| • Simultaneous processing and printing. | • As one file is being printed, the next is being processed. The result? Faster throughput for greater productivity, less waiting time to create your presentation materials. Great for network use, too. |
| • 16 MB RAM; 120 MB hard drive. | • No need for memory upgrades. The KODAK COLOREASE PS Printer comes out of the box with 86MB of available memory. The unique, multi-tasking electronics architecture of the printer maximizes throughput, regardless of file complexity. |
| • MACINTOSH, WINDOWS, printer drivers. Interfaces: APPLETALK, EtherTalk (optional), CENTRONICS parallel and RS232 serial. SCSI interface for external hard drive connectivity (font storage). | • Plug & play compatibility with your hardware and software. Network capable via APPLETALK and optional EtherTalk. Everything you need to get up and running in 15 minutes is right in the box.
All ports are simultaneously active |
| • Adobe Postscript® Level 2 | • Not just <i>compatible</i> with PostScript, Kodak has true Adobe PostScript Language Level 2 built in. Works with any software that's compatible with PostScript language. |
| • 100 sheet tray capacity | • Plenty of capacity for all your printing needs. Load media (consumables) less often. |
| • Kodak 3000 Series thermal media | • Kodak is one of the leading manufacturers of thermal printer media. You can trust KODAK Media for durability, stability and uniformity. |
| • Hardware and media designed and manufactured in U.S.A. | • An extension of Kodak's technology leadership in color science processes and thermal dye transfer printing. |
| • Priced for the desktop | • The KODAK COLOREASE PS Printer is priced to be affordable for general office environments. |
| • Warranty | • One year, on-site, limited warranty. |

The KODAK COLOREASE PS Printer. Nobody knows color like Kodak.

Give your presentations the competitive edge they need with the KODAK COLOREASE PS Printer.

Continuous-tone output. Incredible resolution. For transparencies and prints that demand

attention. Fully compatible with MACINTOSH Computers or WINDOWS Software. With simultaneous printing and processing that maximize productivity. No other printer can do so much so fast.

SPECIFICATIONS

Printing Process: Thermal dye transfer
Processor: 40 MHz SPARC-RISC
Memory: 16 MB RAM, 120 MB hard drive
Print Resolution: 300 ppi (pixels per inch)
Print Speed (typical): 3.5 min/page
Input Tray Capacity: 100 (maximum)
Page Description Language:  Adobe PostScript[®] Level 2

Computer Interfaces:

- APPLE TALK
- EtherTalk (optional)
- CENTRONICS parallel
- RS232 serial
- SCSI (interface for external hard drive)

Printer Drivers Supplied:

- MACINTOSH Driver
- WINDOWS Driver

Recommended System Requirements:

- IBM PC or compatible 386 SX-20 or greater processor; 4MB of RAM or greater
Operating System: MS-DOS 3.1 or higher and MICROSOFT WINDOWS Software 3.0 or higher
- APPLE MACINTOSH II Computer or greater; 4MB of RAM or greater; System 6.0.8 or higher

PHYSICAL SPECIFICATIONS

Ambient operating temperature:
59° to 86°F/15° to 30°C
Relative humidity: 20 to 76%
Physical Dimensions:

- Width: 16.75 in./40.6 cm
- Depth: 21 in./53.3 cm
- Height: 12 in./30.5 cm
- Weight: 60 lbs. (71 lbs. boxed)

Voltage/frequency:

- US/Canada 120/60Hz
- Europe 220/50Hz
- UK 240/50Hz

Agency approval:

- Safety:
 - UL 1950
 - CSA 950
 - TUV EN606950
- EMI:
 - FCC Class B

Power consumption: 250 watts maximum

Warranty: One year, on site, limited warranty
