150-Word Version

KODAK PROFESSIONAL Large Format 4042 and 4060 Inkjet Printers—42-inch wide and 60-inch wide output, respectively—and the faster KODAK PROFESSIONAL Large Format 4742 and 4760 printers are thermal-head based printers with 600 dpi writing systems. MicroBurst technology, improved carriage speed and real-time interpolation help provide excellent imaging quality at faster print speeds. The 4742 and 4760 output speed ranges from 9.7 smph (square meters per hour) for draft quality to 5.2 smph for photo quality output. The 4042 and 4060 printers feature speeds ranging from 8.5 smph for draft to photo quality at 4.3 smph. The printers also feature an automated take-up reel for unattended use, 500 mL continuous ink reservoirs that offer on-the-fly refilling and on-board dryers. A dual plumbing system supports multiple ink sets, allowing a single printer to print both indoor and outdoor jobs.
