

High Quality and Affordability

The Easy-To-Use Color Scanner for Home and Business

Quality

The UMAX Astra 1220 family of scanners is ideal for scanning all of your photos and documents. With 600 x 1200 dpi resolution, and 36-bit color quality, you can add the impact of photographs and graphics to flyers, brochures, newsletters, presentations or your Web pages. Send your images by e-mail to clients, friends or relatives. You can even turn an Astra 1220 scanner and your printer into a copy machine. The Astra 1220 scanners make sharing images easy. Best of all they do it at an affordable price.

Flexibility

The Astra 1220P offers easy connection to the parallel printer port on your Windows based computer. Providing support for both Windows and Macintosh computers are the Astra 1220U, with the new USB interface, and the Astra 1220S with a SCSI interface.

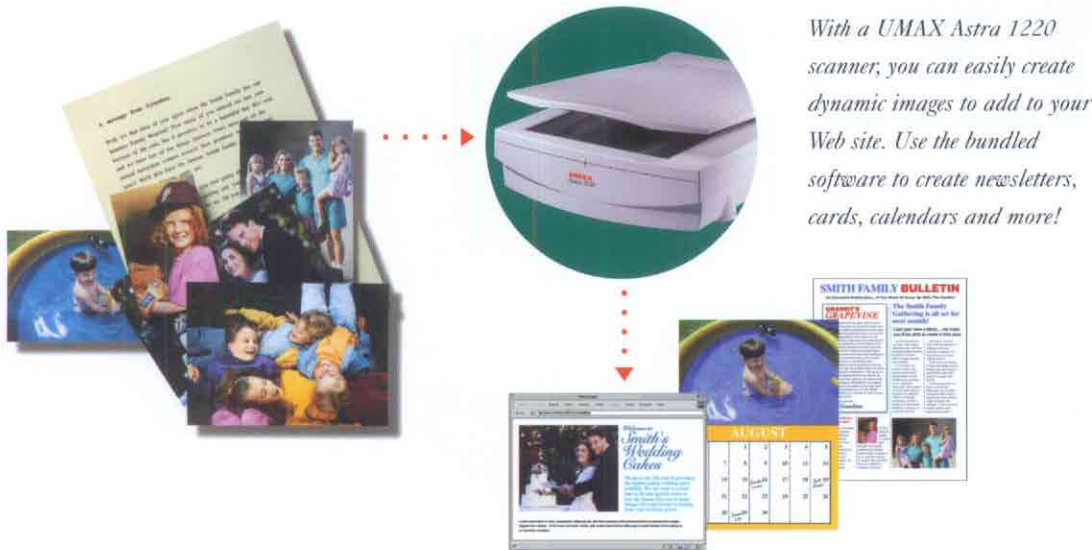

Powerful Software

The Astra 1220 provides powerful software solutions to address all of your home and business imaging requirements.

- Adobe™ PhotoDeluxe™ software gives you the power to edit your images and create newsletters, cards, flyers, presentations and more!
- Caere® OmniPage® LE OCR software can turn scanned documents into editable text.
- NewSoft Presto!™ PageManager desktop management system allows you to archive and manage your images and documents.
- NewSoft Presto!™ PhotoAlbum lets you create personalized digital photo albums that organize and preserve your photos forever...electronically.
- UMAX Copy Utility software turns an Astra 1220 scanner and your printer into a copy machine.

UMAX
#1 in U.S.
Scanner
Sales

*According to InfoTrends,
IDC and PC Data*
