

## The Most Complete Single Touch Scanning Solution

- USB & SCSI-2 interfaces
- Built-in transparency cover
- Fast push-button scanning
- 600 x 1200 dpi optical resolution

**For those who want more.** The UMAX Astra 2200 scanner provides a complete scanning solution for all your photos, documents and transparent material. It is easy to add the impact of images to your Web site, brochures, flyers and presentations. With a USB and SCSI interface, you have the flexibility to use the Astra 2200 with either a Windows-compatible computer or Macintosh system. The Astra 2200 offers 600 x 1200 dpi optical resolution (9600 x 9600 dpi max.) for crisp, scalable 36-bit color images. And with the UMAX' patented Bit Enhancement Technology, you'll get even *sharper and more detailed 42-bit scans.*

**Scan transparent material.** With the Astra 2200 and its built-in transparency cover, it's simple to scan slides and other transparent

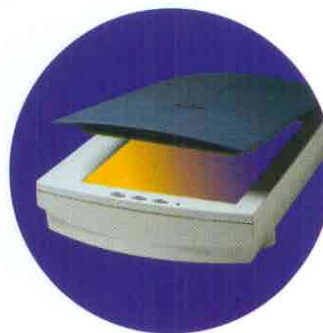

material. Scan your slides and e-mail the pictures to family and friends, or add them to your Web site.

**Easy push-button scanning.** You can quickly scan, copy, e-mail or perform optical character recognition with a touch of a button. That means you can perform your favorite scanning functions in one step, without having to touch your computer.

**More powerful software.** The Astra 2200 includes a powerful software collection to address all of your scanning needs: image editing, Web authoring, image optimization, text processing, file management, and much more. Included with the Astra 2200 is premium, award-winning software from industry leaders: *Adobe Photoshop LE, Macromedia Fireworks, NetObjects Fusion, Caere OmniPage LE and NewSoft Presto!* PageManager.

# UMAX Astra 2200
